# MP2 SQL v6.1™ Hardware and Software Requirements Guide

This document provides hardware and software requirements for the MP2 SQL v6.1 product family. Unless specifically noted, the hardware requirements listed below should not be combined to determine requirements for a single physical machine.

The requirements listed are designed to meet the needs of the majority of Datastream's customer installations, but as each customer may have unique needs, these requirements should only be regarded as a guideline. If you need detailed hardware and software configuration information for your installation, please contact your Datastream Sales Representative.

## MP2 SQL v6.1 Enterprise or Professional

### Database Server

#### Hardware

Processor	SQL Server 2005 Enterprise or Standard: Intel Dual 2.4 GHz Xeon processor SQL Server 2005 Express: Intel 1.6 GHz Pentium 4

Note: The Database Server machine can be used as a client.

### Client

#### Hardware

Processor	Intel 1.6 GHz Pentium 4
RAM	256 MB
Screen	800 × 600 minimum

#### Software

Application	SQL Server 2005 client NET Framework 2.0 (included with MP2 SQL v6.1 installation)
Operating System	Windows XP SP2, Windows 2000 Professional SP4

## MP2 SQL v6.1 Weblink

### Web Server

#### Hardware

Processor	Intel 1.6 GHz Pentium 4
Memory	1 GB RAM or more
Hard Disk Space	Approximately 1GB of available hard-disk space
CD-ROM drive	Required for installation

#### Software

Application	IIS 6.0 SQL Server 2005 client
Operating System	Windows Server 2003 SP1 (32-bit)

## Client

### Hardware

---

Processor	Intel 1.6 GHz Pentium 4
-----------	-------------------------

---

RAM	256 MB
-----	--------

---

Screen	800 × 600 minimum
--------	-------------------

---

### Software

---

Application	Internet Explorer 6.0 SP2 Internet Explorer 7.0
-------------	--

---

Operating System	Internet Explorer 6.0 supported operating system
------------------	--

---

## MP2 SQL v6.1 Messenger / PagerLink

### Messenger Server

#### Hardware

---

Processor	Single 1.6 GHz P4 processor
-----------	-----------------------------

---

Memory	256 MB RAM
--------	------------

---

Hard Disk Space	Approximately 1GB of available hard-disk space
-----------------	--

---

CD-ROM drive	Required for installation
--------------	---------------------------

---

#### Software

---

Application	See MP2 Client requirements
-------------	-----------------------------

---

---

Operating System	See MP2 Client requirements
------------------	-----------------------------

---

Note: The Messenger / PagerLink server can be installed on a MP2 client machine

### Email Server

#### Hardware

See Microsoft recommendations

---

#### Software

---

Application	Exchange Server 2003 SP2, SMTP
-------------	--------------------------------

---

---

Operating System	Any operating system that can support Exchange Server 2003 SP2 or SMTP
------------------	--

---
