## Datastream Training Offerings – Q3 & Q4 2005

	Course	Duration	Cost	Description	Schedule
<b>MP2 Online Training</b>	MP2 Online: Equipment Setup	2 hours	\$495	Participants learn the basics of creating equipment records and using equipment-related functions, including managing a spare parts list, tracking meter readings and maintaining an equipment hierarchy.	July 25, August 22, September 26, October 24
	MP2 Online: Inventory Part I	2 hours	\$495	Participants learn the proper methods for setting up their maintenance parts in MP2, including how to maintain accurate quantities and costs by setting up vendors, manufacturers, stock locations and reorder levels.	July 26, August 23, September 27, October 24
	MP2 Online: Inventory Part II	2 hours	\$495	Maintaining an accurate inventory requires proper and consistent use of all MP2 inventory transactions. Via WebEx, participants learn how to perform day-to-day transactions like receiving, checking out, returning, adjusting, and moving stock.	July 26, August 23, September 27, October 25
	MP2 Online: Purchasing Part I	2 hours	\$495	Participants learn how to create and manage quotations and requisitions for ordering parts and services. The training follows the order from initial quotation through the entire requisition process, including generating and printing quotes, converting quotes to requisitions, setting up, generating, approving, and printing final requisitions.	July 28, August 25, September 29, October 26
	MP2 Online: Purchasing Part II	2 hours	\$495	Participants learn to create, print, receive and close purchase orders. Participants generate purchase orders from approved requisitions and add requisition line items directly to a PO. PO status levels and monitoring methods are also discussed.	July 29, August 26, September 30, October 27
	MP2 Online: Security and Utilities	2 hours	\$495	This WebEx session, for MP2 system administrators, reviews the security module and different utilities available in MP2. Via WebEx, participants learn how to set up groups and users and the security options on menus, forms and fields.	TBD
	MP2 Online: Task Setup	2 hours	\$495	Participants learn how to effectively setup preventive maintenance tasks. Many variables available in the task module are covered, including in-service tasks, multiple equipment tasks, meter-based tasks, schedule types, and work order generation.	July 27, August 24, September 28, October 25
	MP2 Online: Work Orders I	2 hours	\$495	Participants are introduced to creating, printing and closing any type of work order in MP2. This session covers each field in the work order module, as well as the different methods available for printing and closing work orders.	July 27, August 24, September 28, October 26
	MP2 Online: Work Orders II	2 hours	\$495	This session covers advanced functions in the work order module, including entering and approving work requests and scheduling work orders. Participants learn how to set up and track readings in the Statistical Predictive Maintenance module.	July 28, August 25, September 29, October 27

## Datastream Training Offerings – Q3 & Q4 2005
